

NEW PROFESSIONAL DESIGN SERVICE REDEFINES HOME DESIGN FOR BUDGET-MINDED HOMEOWNERS

LivingDesigns has redefined home design! It is the only one-to-one, hands-on design service anywhere that focuses on creating high-style makeovers within an affordable budget. We are proud to add our Virtual Redesign Service to our already popular Design in a Box Mail Order Design program so homeowners or renters can experience immediate gratification while benefiting from this service anywhere across the globe! It simply deletes the barriers and makes distance irrelevant.

With this new virtual design/décor service, there is no need to spend tens of thousands on new furniture and accessories to put a fresh new face on a room. And, because the service shows you how to use what you already have, the cost of new furniture is almost always eliminated.

The virtual design/décor service includes a one-to-one consultation with you over the telephone; and a 3-dimensional design space plan that transforms your space into something that better suits you and your family's desire and lifestyle. It also includes a professional color analysis. If desired, there is an optional on-line shopping service that can include some new furnishings and accessories.

The whole process takes approximately 72 hours to complete (after we receive your information, based on the average room) and is virtually transmitted to you so you can experience immediate gratification and satisfaction. Then you can implement the design yourself as instructed thereby having a hands-on design experience while learning some tricks of the trade.

Here's how the process works:

1. After initial telephone consultation, you can download:

- the client lifestyle questionnaire
- the how to measure room guide
- the how to measure furniture guide
- the how to take digital pictures guide

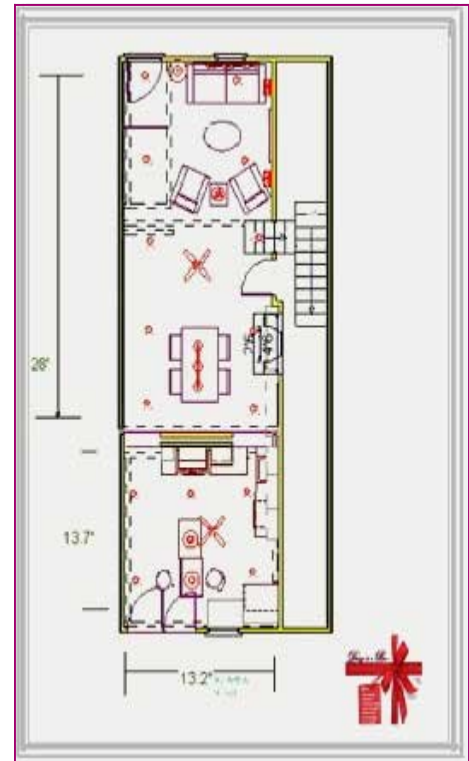

2. You complete the questionnaire, measure the room per our instructions, take digital pictures per our instructions, and upload all the information and send it back to us.

3. In accordance with the answers on the questionnaire, with our expertise and ingenuity we create a 3-dimensional space plan using your existing furnishings, with the same enthusiasm as being in your home, based on the information and measurements provided by you.

Don't go it alone with your room maker-over.
Knowing where and how to begin is half the battle!
What do you do with that awkward corner?
Not getting the right feel for your space?
Too overwhelming?
I'll coach you how to do it yourself! It's easy!

Trying to figure out
the best room layout?
I'll design the layout
for you!

Not sure if the color
is just right?
I can help you to
select the right
colors, tones and
textures.

I'll walk you through all the details!

What would I do without you? The telephone and e-mail coaching for my bedroom and family room has helped me so much, it really looks like you were here! Thanks again. I'll be phoning or e-mailing you soon!

Susan
MARYLAND

It exceeded our expectations! Following your directions we are now very comfortable. We now know how to use color and because you had the eye to guide us, we know what to look for. Shopping on-line was easy!
